Technical information bulletin | 28-04-2016

Concerning: prefilled pressure tanks

Dear Customer,

In our continuous effort to further improve the quality of our products, we are implementing the following modification on all complete systems that have a separate pressure tank with diam. 10” or 12” (ProFlow, MultiMix, NoNitrate).

Please see **PDF enclosed** for the complete info bulletin.

Please do not hesitate to contact our sales team if you need any additional information on this topic.

Very best regards,

Your erie water treatment team
